## PREMIER MAY HEAD BRITISH PEACE MAKERS

(By the Associated Press)  
Paris, Aug. 8.—Statements today on apparently good authority that Premier Lloyd George of England will not go to the United States for the international conference on limitation of armaments, were officially denied this afternoon.

The premier's secretary issued an official announcement that the personnel of the English delegation to the conference has not been determined. The delegates will be selected by the cabinet. It is currently reported in international circles that Premier Lloyd George will head the British delegation in person, as former President Wilson headed the American delegation to the Paris peace conference.

New Orleans October and December each lost 27 points net, closing at 12.75 and 13 cents, respectively.

(By the Associated Press)  
Nauvoo, Ala., Aug. 8.—William Edmonds is in a critical condition and Rev. Albert Edmonds, is seriously ill as a result of bites by a snake said to have been used in religious rites last Friday night. Rev. Edmond is said to have declared from the pulpit that true believers are impervious to snake bites. ## N. Y. RESERVE BANK REPLIES TO WILLIAMS

(By the Associated Press)  
Washington, Aug. 8.—Benjamin Strong, governor of the New York Federal reserve district, today took the stand to answer charges that the system had discriminated against agricultural interests in making loans. Mr. Strong appeared before the congressional committee investigating agricultural conditions, and declared that his district wished to take up serious charges made by John Skelton Williams, former comptroller of the currency, against the administration of federal loan funds.

Mr. Williams charged that reserve loans were easily available to member banks in the New York district, but could hardly be secured in agriculture sections without putting up excessive security.

## BOILER EXPLODES SENDS SHIP DOWN

(By the Associated Press)  
Eureka, Cal., Aug. 8.—The steamer Alaska, which struck the rocks off Blunt's Reef and went down Saturday night with a death list probably at 48, was split in two by the explosion of its boilers when the ship started to sink, and passengers and crew were thrown into the sea by its force, according to survivors.

Twelve of the dead have been identified, five remain unidentified and 31 are missing and believed dead.

A dense fog concealed the treacherous rocks off Blunt's Reef, which projects far out into the ocean, when the Alaska crashed at 9:40 Saturday night. Within 20 minutes, the crippled steamer listed, turned and sank to within four feet of the tips of the masts. The passengers were placed in life boats, but one overturned as it was placed in the water. The steamer was bound from Portland to San Francisco.
